Town of Orange
Board of Selectmen

Board,

Thank you for the opportunity to partner with the Town of Orange for waste diversion. Simple Recycling's specific area of expertise is helping municipalities increase their waste diversion by finding the best use of textile material that would have been otherwise thrown away.

The two places that residents bring their items too are the Town of Orange recycling/transfer station along with the Community Center. Unfortunately, for several reasons, as it relates to the Recycling Center, it is not a good fit for either side,. We have made several attempts to make adjustments to "make it work" without success. Having said that, the clothing collection bin at the Community Center is doing well.

Please accept this letter as notice that Simple Recycling will no longer be able to offer drop-off service at the Recycling Center. We are willing to work with the Town on a plan to transfer the service to another vendor in a manner that will minimize any interruptions in service or inconveniences to the residents.

In either event, Simple Recycling will no longer be providing service at the Recycling Center as of September 10th, 2021. We hope to work with the Town on a faster timeline

Best,
